DHUBRI LAW COLLEGE

NATIONAL SEMINAR

On

**“Emerging paradigms of Human Rights:
Issues, Challenges and Prospects”**

16th of March, 2016.

An outline

Theme of the Seminar:

Protecting human rights of the people is biggest challenges in this globalized society. Human rights are not only standards, but also claims of the citizens on the allocation of resources of the society. The role of Government is very important for the overall enforcement of human rights.

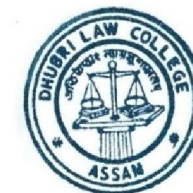

The nature, content, limitations and scope of human rights may change with changing times. They have to be flexible enough for different cultures socio economics and political systems. The new emerging paradigms of human rights reveal that the concept of rights is still evolving. We may see new challenges ahead. The proposed seminar provides a forum to scholar, academicians, lawyers, jurists, students, activists to share their perceptions and dilemmas on the new ideas of rights and duties in our society.
