Arsenic which is formed in heavy quality in the ground level water of Sivasagar and Nazira makes the people worry. Now the Govt. is trying to create awareness among the people and take some preventive measures.

Under the guidelines of 'National Rural Drinking water quality monitoring and surveillance programme the Public Health and Engineering Department of Sivasagar and Nazira is conducting a few awareness camps in different places.

At Santak and Bihubor where two water project were sealed by the PHED Nazira for presence of heavy quantity of arsenic. Govt. is now planning to setup a arsenic -tretment plant there.
