## Cancer is curable with Dhaniram Baruah

[AT News](#) · 14:12, 19 Dec 2007 | Updated 11:08, 29 May 2016 · 124063 views · 2 min read

Its genetic engineering (/taxonomy/term/2456) that can cure cancer (/taxonomy/term/2066) without any recurrence possibility. It was claimed by renowned heart (/taxonomy/term/2457) specialist Dr Dhaniram Baruah whose yearlong research on cancer (/taxonomy/term/2066) treatment has been proved fruitful.

The killer cancer (/taxonomy/term/2066) is no longer incurable. Addressing a press conference in the city (/taxonomy/term/1957) on Thursday, renowned heart (/taxonomy/term/2457) specialist and applied human genetic engineer Dr Dhaniram Baruah said only genetic engineering (/taxonomy/term/2456) is there to help the doctors cure cancer (/taxonomy/term/2066).

She is Sugam Konwar from Rajasthan. This 48-year-old lady has been suffering from myeloid dysplastic syndrome for the last four years. Her son Mahinder Sekhawat said his mother was rushed to several prominent hospitals in Delhi, Mumbai and Jaipur. But only to be discharged. But she is gradually getting a recovering after being attended by Dr Baruah.

Mushraffuddin Ahmed from Dhubri has been suffering from bone cancer (/taxonomy/term/2066) in his legs. He got his left leg dissected to get rid of this incurable disease. But recurrence came to upset him in his left leg. The nine-month treatment at the B Barooah Cancer (/taxonomy/term/2066) Institute has failed to cure him. He had no option but to rush to Dr Dhaniram Baruah on 20th of November and after three days of treatment he is recovering gradually.

Several patents attended by Dr Baruah who participated in the press conference narrated their experiences before the reporters. Notably, if what Dr Baruah claims is proved to be true, it will be a great invention for several incurable diseases.
