

Centre blames external element in riot

[editor](#) · 04:05, 7 Aug 2012 · 8127 views · 1 min read

The Centre on Monday blamed external elements in the ethnic clashes in BTAD areas and Dhubri areas where almost 60 were killed. Dispur is also likely to hand over the probe into the recent violence to CBI. Talking to reporters in New Delhi Union home secretary RK Singh said that the situation is under control as of now. There could be some external elements behind the violence.

Singh had ruled out the possibility of involvement of anyone from across the border saying it was simply impossible for any organised group crossing over to India from across the border as the international border was sealed. He said that state and the Centre are determined that we will have this investigated and get to the people who are behind this.
