Kokrajhar: Kokrajhar along with other BTAD districts are reeling under severe cold as the mercury level ([/taxonomy/term/2232](#)) has gone down, down and down. The day marked nearly 9 degree Celsius early in the morning forcing the people to resort to sit along the fireside. Dense fogs have compounded the situation. 'This year saw heavy cold mercury since past few days. The cold wave is becoming due to imbalance of environment', said a local resident in Kokrajhar.
