I wake up in the middle of the night

All drench in sweat with fear

That dream that I was seeing

I realized am living this year

World is set on fire

Humanity is burning

God has disappeared beyond the eternity

Eyes are blindly still searching

with the sweat on my forehead and restless heart,

burning thoughts killing my brain

I sit on my desk

with an aching soul and agonizing pain

The tears of hunger and the blood of thirst,

hatred among people, indifference- the eternal curse

Pandemic or a wrath of God, Rape of life or a murder for a cause

a comic Apocalypse or hollow Redemption amidst the living corpses
interspersed

As I write at 2 AM, finding way through the insanity of my mind,

contesting with the ghostly shadows of surviving corpses and cold stares
of their eyes

Sins and Virtues, Gods and Demons, coldness of hearts, no compassion
to feel

O' Human ! A Paragon of Animals ! you are burning in your own pyre of
ignorant sacrifice ..
