### Let up in Guwahati waterlogging

AT News · 10:36, 14 Jun 2017 · 10463 views · 1 min read

Rain waters (/taxonomy/term/2337) start (/taxonomy/term/1707) receding in Guwahati on Wednesday twenty four hours after heavydownpour wreaked huge havoc in the premier north eastern city (/taxonomy/term/1957) where two persons were killed.

Barring the low lying areas, there is marginal let up (/taxonomy/term/2264) in the situation in the points where rainwaters have disappeared on Wednesday morning.

The situation improved because of let up (/taxonomy/term/2264) in the rains apart from the initiatives to pump out the disrupting rain waters (/taxonomy/term/2337) which submerged almost 60% of the capital state (/taxonomy/term/2332).

GD Road is cleared of the waters (/taxonomy/term/2337) while the RG Barua Road will be clear towards the evening. But if fresh rains lash the city (/taxonomy/term/1957), it would be another nightmare.

The district administration has asked the school authorities not to remain opened on Wednesday in view of the flood situation.

A joint group (/taxonomy/term/2415) of GMC, GMDA and district administration has been fanning in the worst-hit areas to ensure rescue operation deploying SDRF while top administrative officers in Dispur have been monitoring the situation to apprise it to the chief (/taxonomy/term/2020) minister.
