The construction of Lower Subansiri Lower Hhydro-Electric Project is going on at Gerukamukg, Dhemaji district bordering Arunachal Pradesh. It is the biggest hydroelectric project undertaken in India so far and is a run of river scheme on river Subansiri. The Project is located near North Lakhimpur on the border of Assam and Aruncachal Pradesh. The nearest railhead is Nagaon and nearest airport is Lilabari. The estimated annual energy generation from the Project is 7421 MU in a 90% dependable year.

Features

SALIENT FEATURES

Location	Located in lower Subansiri/Dhemaji Distt. (Arunachal Pradesh & Assam)
Approach	Nearest Rail Head is Nagaon & Nearest Airport is Guwahati
Capacity	2000 MW (8x250 MW)
Annual Generation	7421 MU (90% dependable year)
Project Cost	Rs.6285.33 Crores (December 2002 Price Level)
Year of Commissioning/Completion Schedule	January 2012 (Anticipated)

TECHNICAL FEATURES

- A concrete gravity dam 116 m high from river bed level.
- Head Race Tunnel - 8 Nos. 9.5 m dia, Horse shoe shaped having a length from 630 to 1145 m.
- Pressure Shaft-8 No, Horse shoe/circular shaped varying dia. of 9.5m-7.0m and length 192m to 215m.
- Surface power house to accommodate 8 units of Francis turbines of 250 MW capacity each.
- Tail race channel, 206 m x 35 m (W x L)

PRESENT STATUS

(As on 31.08.2007)

- Diversion Tunnel heading excavation completed, 99.35% Benching excavation, 72.46% Overt lining and 84.97% Overt lining completed.

- 37.15% adit to Surge Chamber excavation and 57.40% Surge Chamber excavation completed.
- 97.21% PH excavation and 2.83% PH concreting has been completed.
- HRT excavation, E&M and HM Works are in progress.
