[Orang](#) Balika ME School in [Udalguri](#) district was established in the year 1991 with public donation and support. The school was temporarily run in a house in the premises of [Orang](#) Lakhi Mandir. [Education](#) department of Assam government took [over](#) the school in the year 2013 by according provincial status to it. But unfortunately even after its provincialism the students of the school have been suffering a lot because of lack of own school building. In 2008, Assam Science [Technology](#) & [Environment](#)

Council,Guwahati (ASTEC) granted an Aryabhata Science Centre in the school for [Mazbat](#) block. Since then the school has been coordinating science based activities in [Mazbat](#) block.Several students of [Mazbat](#) development block have participated in the district and [state level](#) science activities.An amount of Rs.4 lakhs had been sanctioned by ASTEC to the science center in 2014 and the science building was build in 2016 at the own land of the school near [Orang](#).The school was shifted to its new site in 2016.But [education](#) department of Assam didn't propose to construct a school building even in own land.At present there are more than 96 students in the school with six numbers of teachers,one choukidar and two cooking staff. Dikamaya Devi,Headmistress of the school told this correspondent that students have been suffering a lot in the temporary class room sheds.He said with regret that it was difficult to run classes in rainy days.Without its own building,the school authority was compelled to use the Aryabhata Science Centre building as the office and store rooms respectively, which has stopped all science activities.The dilapidated [state](#) of the class rooms have posed threats to the the students as the school sheds might collapse any time.People of [Orang](#) urge BTC and SSA immediately to [start](#) constructing class rooms for students.
