Kokrajhar, May 2: A search operation that began yesterday evening concluded today with the recovery of three bodies from the Beki River near Manas National Park in Baksa district.

The three youths, identified as Deep Saha, Raj Saha, and Abhijit Karmakar, all from Barpeta Road, reportedly went missing after entering the river for a swim on Wednesday evening. Local sources informed that authorities, including the police, SDRF, and local residents, launched a search operation late Wednesday night.

"The bodies were fished out of the river this afternoon after a thorough search," a local source said.

The cause of drowning is suspected to be strong currents or hidden underwater hazards. The bodies have been sent for postmortem examination. This tragic incident casts a shadow over the families and friends of the deceased.
