Tremor rattles North east India

[editor](#) · 00:16, 1 Jan 2010 · 9281 views · 1 min read

A moderate intensity earthquake has jolted Assam and its neighbouring north eastern states on Thursday. The tremor was felt at around 3-28 in the afternoon forcing a section of residents in Guwahati to come out of their houses. However, there is no immediate report of any casualty and damage. The quake has rattled two days after the quake of 5.4 intensity that jolted the region on Tuesday. Details are awaited.
