Four young greater adjutant storks, a highly endangered stork species, were [found](#) at Chakalaghat in the Nagaon district on Wednesday. Some locals spotted the young adjutant storks close land adjacent to Barbhety Simolulol [PWD](#) road and [rescued](#) them with providing initial care. The storks were later handed [over](#) to Forest officials of Nagaon. It may be mentioned here that Near to chalaghat their was a tall tree where Some greater adjutant storks had nested in. But few days back the owner of the land have cut down the tree for which the young storks fallen out from the nest.
